

Guide to Newly Added Features in amnimo Services

November 7, 2019

For Customers

Thank you very much for your use of amnimo services.

We are pleased to advise you that the following features of amnimo services will be available for use from November 7, 2019.

1. Activation app now available for iOS version

Applicable services: amnimo sense, pump guard

Supported countries: Japan (all services), Malaysia (amnimo sense only)

Overview:

The device activation app, formerly available only for the Android OS version, is now available for the iOS version as well.

System requirements:

- iPhone supporting iOS 10 or later. The app cannot be used with the iPad OS or watch OS.
- Camera with QR-code reading capability
- Ability to download the dedicated app, [Device Activation](#), from the AppStore
- Internet connection
